

PPA SchoolBzz Channel Guide

Introduction

SchoolBzz is a new messaging service which helps schools streamline the information they share with families. Simplicity is the goal, and SchoolBzz provides a way for parents to easily get relevant information in one place.

- **Channels** are created for educators to share information with parents about the classes, teams or groups they lead.
- Parents **follow** channels based on the classes, teams or groups in which their children participate.
- Channel **announcements** are automatically aggregated into one message feed, so parents can quickly access the latest updates.

Channel Guide

The following channels have been created for PPA for the 2017-2018 school year. Because multiple programs are used to manage classroom learning, there are unfortunately some inconsistencies in naming conventions. This guide is meant to provide you with the 'label' which is used within the SchoolBzz platform.

Don't see what you're looking for? Email support@schoolbzz.com to request a channel or submit feedback.
